### AUTO ASSOCIATION

LOCAL ORGANIZATION HOLDS  
SPECIAL MEETING TO CON-  
SIDER GARAGE ORDINANCE

A special meeting of the Glendale Auto Trade Association was held Thursday evening in the salesroom of the Bartlett & French Agency on Brand boulevard. Jesse Smith, president, called the gathering to order and then asked Max Green, vice-president, to preside.

The consideration of the new ordinance regulating the construction and location of garages was the special subject of the meeting and discussion by the fifteen members present was general and informal. Mr. Spencer, secretary of the Los Angeles Auto Trade Association, and Mr. Maltman attorney for the Southern California Auto Trade Association, were present and participated in the discussion.

Plans were considered for increasing the membership of the local organization which is developing a great deal of pep and enthusiasm.

A report was made by a committee consisting of R. C. Chambers, Stafford Harlow, T. B. Smith and Wm. Hooper, appointed to visit cities up the San Fernando Valley to solicit members for the Association. They had seen every auto agent and dealer in accessories but one in San Fernando and all gave hearty assent to the membership proposition. This same committee is to visit other cities in the Valley for the same purpose and it is the intention to incorporate as "The San Fernando Valley Auto Trade Association."

### CITY SCHOOL NEWS

TRUSTEES LET CONTRACT FOR  
INTERMEDIATE ADDITION  
AND ALTERATIONS

At the regular meeting of the Board of Trustees of City Schools held at the Intermediate Thursday evening, three bids for the building of an addition and for alterations to the Intermediate were presented as follows:

The Willard-Brent Company, \$26,450.  
H. M. Boward & Sons, \$26,615.  
Edwards, Wilkey & Dixon, \$25,268.

The Board let the contract to Edwards, Wilkey & Dixon whose representatives stated that work would begin as soon as the contract had been signed, which would be about the first of next week. The alterations will include the enlargement of the administration offices.

Bids for furnishings and equipment were submitted but no final action was taken in regard to them. These included a bid for a full equipment for a cafe for the Intermediate but it was so high the bid was rejected. The portion of the building designed for the cafe will be so finished that equipment can be installed any time the Board considers it advisable.

The resignation of Miss Leila May Smith of 328 Milford street as kindergarten teacher, was accepted and Miss Dorothy L. Hunt, daughter of Dr. and Mrs. David W. Hunt of West Elk avenue was appointed to fill the vacancy.

Superintendent White was instructed by the Board to write the Pacific Electric Railway Company accepting its proposition of \$2400 for the triangle of land adjoining the Cerritos Avenue School grounds, its dimensions being 135 feet on Brand and 129 on Cerritos avenue. By the purchase of this land the campus will include all the land between Cerritos avenue and the road leading to Forest Lawn Cemetery and between Glendale avenue and Brand boulevard.

### KENTS RETURN

ROY L. KENT AND PARTY RETURN FROM AUTO AND CAMPING TRIP IN U. S. RESERVE

Roy L. Kent with his wife and children, returned Thursday afternoon from a delightful two weeks' auto and camping trip, and Mr. Kent declares he "feels like a million dollars."

They first visited the Sequoia National Park where they camped, together with J. L. Gray and family of North Isabel street, Glendale. Their camp was on the Marble Fork of the Kaweah river, five miles from Giant Forest. They broke camp last Sunday and came home by way of Fresno, Pacheco Pass and the coast highway. En route they visited San Juan Mission, Monterey, Del Monte, Pismo and other points of interest.

### TRUSTEES' MEETING

NEW ELECTION DATE—FREE-  
HOLDERS NOMINATION PA-  
PERS FILED TOO LATE

The Board assembled at 8:15 p. m., August 12, 1920. Trustees Mrs. Ann P. Bartlett, C. H. Henry, Spencer Robinson, Hartley Shaw and D. W. Stephenson being present.

The minutes of the meeting of August 5, 1920, were read and approved. A communication was read from Wm. Budkie, requesting that he be permitted to establish a "rest cure" home on Tract No. 670, Verdugo Road. This was referred to the City Manager to investigate and report upon at the next meeting of the Board.

An application was read from Father O'Neill of the Catholic Church, requesting permission to "keep a revolver to protect church property." On motion of Trustee Stephenson, the City Clerk was instructed to reply to Father O'Neill's application stating that there is no city ordinance preventing people from having weapons in their possession at their homes.

An application of T. C. and H. T. Gillett for a permit to hunt within the unsettled area of the city was denied.

An application was presented from C. G. Gordon, C. E. Mindhall and B. F. Orr, requesting a permit to operate a sash and door factory at 422 San Fernando Road to be operated by electric power. On motion of Trustee Henry, permit was granted. Operation of the factory to be restricted to the hours between 7:00 a. m. and 7:00 p. m.

A protest was presented signed by Louis B. Howe of 727 E. Windsor Road and about thirty-three other residents of that section, protesting against the location, maintenance and operation of the moving picture studio now located at 831 East Windsor Road. The protestants stated their objections particularly to the fact that the work at the studio continues throughout the twenty-four hours of the day and is operated in such a manner as to be a serious detriment and nuisance to the neighborhood. On motion of Trustee Stephenson the matter was referred to the Committee of the Whole to be considered and taken up at the next regular meeting of the Board.

Bids advertised to supply the Public Service Department with brass goods were ordered to be opened and publicly read, and bids were opened and read and on motion referred to the City Manager.

The hearing of protests against the operation of Resolution No. 1108 in regard to lot cleaning was called for. No protests having been received and no protestants appearing, Trustee Stephenson offered a resolution which was adopted as Resolution No. 1115, ordering Street Superintendent to have the work done as described in Resolution of Intention No. 1108.

A representative of the State Compensation Insurance Fund appeared before the Board and explained the plan and operation of the said fund as it applies to the insurance of municipalities against injuries to their employees. He stated that the cost of insurance for the City of Glendale based upon the present payroll would be about \$3,600.00 annually. On motion of Trustee Robinson, it was ordered that the city take out insurance policy with the State Compensation Insurance Fund for the period of one year beginning at once.

The City Attorney reported on the proposed franchise desired by pipe line company on San Fernando Road from the northerly city limits, southerly to Doran street, to the effect that the notice of sale referred to him for examination appears to be correct. On motion of Trustee Henry, the City Clerk was instructed to advertise the sale of a franchise to lay gas pipes, for ten successive days in the Glendale Evening News, bids for the same to be opened August 26, 1920, at 8:00 p. m.

The City Clerk presented the following report, which was referred to the Committee of the Whole:

"Hon. Board of Trustees, City of Glendale:

"The Auditor of Los Angeles county has filed with the City Clerk of Glendale his report showing the valuation placed by him upon property in this city for assessment purposes for the years 1919-20.

"The total valuation of all non-operative properties is \$9,384,535.

### DESCHANEL'S RESIGNATION IMPENDING

ATTEMPTED ASSASSINATION OF VENIZELOS BELIEVED  
TO BE ROYALIST PLOT

(Special Service to Glendale Evening News)

PARIS, Aug. 13.—The resignation of President Deschanel is impending as a result of France's new and aggressive anti-Bolshevik policy and consequent misunderstanding with Great Britain, high political circles believed today. That Premier Millerand will be elected president and Anton Briand appointed Premier, was considered likely.

Newspapers declared today that the recognition of General Wrangel's government in South Russia was a mere incident in the gradual divergence in policy between France and Great Britain. An immediate reorganization of the Entente cordiale upon a new and solid basis is necessary, the papers said.

President Venizelos of Greece was resting easily this morning following the removal of the assassin's bullet which split his shoulder blade. Physicians reported his condition satisfactory although absolute rest is necessary.

The two would-be assassins are believed to be members of the Royalist party seeking to restore former King Constantine to the Greek throne.

### POLES HOLDING THEIR OWN

RUSSIAN FORCES FACING WARSAW REPEATEDLY TURNED  
BACK AFTER OBTAINING FOOTHOLD

(Special Service to Glendale Evening News)

LONDON, Aug. 13.—The Poles are offering bitter resistance in a battle with the Bolshevik thirty miles north of Warsaw, according to dispatches received from the Polish capital today.

The Russians are being repeatedly turned back after obtaining a foothold in the defenses.

A large Polish force is being kept in reserve as the Polish commanders are fearful lest the Russian attack north of Warsaw is a mere feint.

### STREET CAR WRECKED IN DENVER

CREW ESCAPE INJURY WHEN CAR STRIKES BOX OF DYNAMITE PLACED ON TRACK

DENVER, Colo., Aug. 13.—A street car was wrecked when it struck a box of dynamite placed on the track early today. Members of the crew escaped injury. Police and troops were rushed to the scene.

As against \$7,692,995 for the previous year.

"J. C. SHERER,  
"City Clerk."

On motion of Trustee Stephenson, the City Attorney was instructed to prepare an ordinance fixing the tax rate for the current year.

The City Clerk presented the following communication:

"Hon. Board of Trustees, Mrs. Bartlett and Gentlemen:—

"Nomination papers for fifteen candidates for members of the Board of Freeholders to frame a Charter for the City of Glendale were filed with the City Clerk at 9 o'clock p. m., August 4, 1920, being the twentieth day before the date of the election called for August 24, 1920.

"The City Attorney informs me that in order to comply with the provisions of the Special Act Regulating General Municipal Elections, in effect July 27, 1919, these nominations should have been filed by 12 o'clock noon of August 4, 1920.

"It appears therefore to be my duty to report to your honorable body that no nominations were filed in this office within the time required by law, for the proposed Charter election.

"J. C. SHERER,  
"City Clerk."

On motion of Trustee Bartlett, the City Attorney was instructed to prepare an ordinance calling an election for members of Board of Freeholders to prepare a Charter for the city.

Demands were presented and referred to the Finance Committee. Later, the Finance Committee reported back demands approved and on motion of Trustee Stephenson warrants were ordered to be issued in payment of the same.

A motion made by Trustee Stephenson was adopted that the sum of \$1,270.00 be appropriated from the water and light bond fund for payment to Engineer Lynch in accordance with the terms of the contract between him and city.

The City Manager presented a report in regard to the finances of the Public Service Department, which was ordered to be filed and a copy of same delivered to the individual members of the Board.

The City Manager reported applications to remove trees and recommended that permits to do so be

### PATRIOTIC DUTY

J. C. SHERER CALLS ATTENTION  
TO THE NEED OF MORE  
HOUSES

Editor News:—

Noting your timely but brief editorial in today's issue of the News on the need that exists for home building, permit me to add a few lines to the same.

Home building, or house building as the case may be, is the paramount patriotic necessity of the present time. Everything else, however disguised under the name of "improvement" should give way to it. Every enterprise that calls for labor or material, which is not an actual necessity, increases the burden and difficulty of the home builder and adds almost directly to the cost of his enterprise.

People who are blessed (assuming that it is a blessing) with surplus money, can do a real service to the community and to the world at large, and assure themselves a good profit on their investment, by house building at the present time, either for rent or sale; it is difficult indeed to suggest a more patriotic service.

Ordinarily the possessor of surplus money is to some extent a public benefactor, when by spending he puts it into circulation, even though in the estimation of his neighbors he may be doing something foolish with it; but this rule does not apply as we are passing through an abnormal era, and the spending of money for anything in the nature of a luxury, is an additional draft upon available labor and material necessary to supply them, and takes proportionately from the resources of the world in the things that are essential to the production of necessities, among the first of which is homes for the people.

J. C. SHERER,  
Glendale, Aug. 11, 1920.

### FAREWELL DINNER

DR. AND MRS. LESLIE EAMES  
ENTERTAIN FOR MR. AND  
MRS. E. S. EAMES

Mr. and Mrs. Leslie Eames entertained Thursday evening with a little dinner party as a farewell function for the doctor's parents, Mr. and Mrs. E. S. Eames, who are leaving for Missouri Saturday after a six months' stay in Southern California. It was their first visit to the coast and they are so charmed with the country they would like to transfer their residence. The earthquakes never caused them a flutter. They went through a cyclone two years ago and say the earthquakes were not to be mentioned in the same breath. Other guests at the dinner were Dr. and Mrs. John Eames and Mr. and Mrs. W. W. Worley and son Charles.

### From Big Bear

A party which included Miss Clara Glenn and Miss Blanche Shelton of Burbank and Misses Alice and Leta McCoy of Glendale has returned from a two weeks' stay at Indian Lodge, Big Bear. They report the rowing and swimming just fine and that all the camps were full. They returned by the Rim o' the World route via Little Bear, and got home Sunday night. They say that none of the earthquakes were felt there.

### TRAFFIC OFFENSES

TRAUTWEIN BACK ON JOB,  
GIVEN DRASTIC ORDERS ON  
LAW VIOLATIONS

W. E. Trautwein, "speed cop," went on duty again this morning after a month's lay-off, two weeks of which he, with his wife, spent at the beach. Mr. Trautwein has served as traffic officer for 20 months. He returns to his duties with orders, which he declares he will carry out to the letter, to arrest every violator of the traffic law, no matter what his or her name or station. Morris Jackson, who has been substituting for Mr. Trautwein, will remain on the force and will be night traffic officer.

Judge Lowe's instructions now are that every person arrested for turning around between crossings in the congested districts, shall be required to deposit a cash bail of \$5.00 for appearance in court, and for speeding \$10 cash bail, as a determined effort will be made to curb the reckless disregard of traffic laws now prevailing.

### CHARTER ELECTION

ON ACCOUNT OF ERROR CANNOT  
BE HELD AUGUST 24TH—  
NEW DATE TO BE SET

The election for choosing 15 Freeholders to frame a charter for Glendale will not be held on August 24, as advertised. At the trustees' meeting last night City Attorney Evans advised the board that the nomination papers for candidates in this election were filed at 9 p. m. of Aug. 4, the last day for that purpose, instead of 12 o'clock noon, as required by law, hence were invalid, and no election can be held.

It was ordered by the board that another election date be set for this purpose, the city attorney to prepare an ordinance to this effect. The statement was made that it would be six months before a charter recommended by Freeholders elected for the purpose could be approved by the citizens of Glendale, which would be barely in time for action to be taken on the same by the next legislature of the state.

### HIGH SIERRAS

J. W. HENDERSON AND FAMILY  
RETURN FROM AUTO CAMP-  
ING TRIP IN MOUNTAINS

Mr. and Mrs. John W. Henderson and family have just returned from an auto camping trip which took them up into the Sierras. They had no special program but camped wherever night overtook them and had plenty of company as there were many groups of campers all through the mountains. Some time was spent at Mammoth and Convict Lakes, which have an elevation of about 8000 feet and are delightful places to camp. Mr. Henderson says. Fine cattle are raised on the ranches in the mountain valleys and they were able to get delicious steaks for 25c per pound, the cheapest meat they encountered on their travels. Ordinarily fishing is good in the lakes mentioned, but fish were not biting well when Mr. Henderson cast in his lines. The water is beautifully clear and cold, particularly in Convict Lake which is so deep that the bottom has never been sounded.

From these lakes they went over the Tioga Pass which attains an elevation of 9941 feet and into the Yosemite. The approach from that side is very rough, the grades, according to official statements, running from 18 to 22 per cent, but Mr. Henderson declares his conviction that in some places they were 30 per cent. Also the roads are deeply rutted and rocky.

After entering the park they saw deer which are protected there. There is a toll charge to enter the park and a record is kept of every machine and its passengers which is checked up at stations in the reservation so that close track can be kept of the movement of every visitor. Arms are sealed and no hunting can be done.

The party came out through Madera and on home, camping by the way. They left here the 26th of July and got home August 11th, well satisfied with a trip in which they saw much picturesque scenery, and beautiful timber and wild flowers.

### Ex-Tennesseans

A group of ex-Tennessee parents and children boarded a trolley car Thursday morning and went to Venice where a delightful outing was enjoyed. The temperature of the ocean was delightful and the children spent most of the time in the surf, even the babies taking to the water. They returned at 6 p. m., the party including: Mr. and Mrs. W. W. Alexander and daughter Juanita, Mrs. Ella Griffin, her son James and daughter Jessie, Mrs. Ed Alexander and three children, Doris, G. E. and Lester, Mrs. Joseph Griffin and three little sons, Jim, Jack and Dan.

### Newspaper Family

W. G. Bohannon, wife and daughter, Helen, who recently purchased from Mrs. Maude Potter and now occupy the residence property at 123 North Everett, came here from Portland, Oregon. They are a newspaper family on both sides of the house. Mr. Bohannon when a youth worked in a daily newspaper office in Canada and later married the daughter of the proprietor, who was also a worker on the paper. They afterward published a paper of their own.

LYON FOR DISTRICT ATTORNEY

With but three weeks in which to carry his campaign to the voters of Los Angeles county, Charles W. Lyon, State Senator and prominent attorney, has launched a hustling fight to become district attorney. Lyon-for-District Attorney clubs are being formed in every city and community as well as in every precinct in the City of Los Angeles.

It is being impressed upon voters that the election will be decided at the primaries, August 31st, there being only two candidates in the field. Lyon is opposing Thomas Lee Woolwine, the incumbent.

Although Lyon will not make a personal attack upon Woolwine, many of the civic and social organizations that are supporting his candidacy will issue statements charging the incumbent with extravagance in office, with inconsistency of policy, with having dragged the names of public officials and responsible citizens before the grand jury without sufficient grounds for prosecutions, with failure to properly prosecute cases and with temperamental unfitness.

Stress will be laid on the recommendation for clemency made by Woolwine in the case of "Bluebeard" Watson, the fiendish multi-murderer, who, through the intercession of the district attorney, was given a life sentence instead of being sent to the gallows. It is held that if any murderer ever deserved death it was "Bluebeard," who slew nine wives, carefully planning their deaths and the disposal of their bodies.

As evidence of the inconsistency of Woolwine it will be charged that he went to the other extreme in opposing probation for Capt. Stokes, the army officer who returned from serving his country to find his home debauched and slew the traducer of his wife. There was deep public sympathy for Stokes and it is contended there should have been no opposition to his being granted probation. The court so held.

Comparison is also made with the barter in the "Bluebeard" case and the quick bringing to justice of Mose Gibson, the Trapp murderer, who was sentenced to death within fifty-eight hours, in Orange county.

Bankers, business men, attorneys and taxpayers are lining up under the Lyon banners, it is declared, because they disapprove of Woolwine's administration.

Here is a pledge issued by Lyon which, if lived up to, assures a good, clean administration:

"Recognizing the high moral tone of the sentiments of the people of Los Angeles county, if elected District Attorney, I will administer and discharge the functions and duties of that office in a manner in keeping with and in harmony with these sentiments of the people of the community, and in the selection of deputies and assistants, other than those chosen through Civil Service, I shall appoint only those persons of the highest intellectual and moral attainments.

"It is further my determination to administer the duties of that office in accordance with the following principles, which, if elected, I shall regard and adhere to inviolately, and to the accomplishment of that purpose, I will:

1. Use my earnest endeavors to prevent the commission of public offenses;

2. Prosecute aggressively, impartially, but fairly, all violators of the law;

3. Conduct the District Attorney's office with strict observance of the law—it's letter and spirit;

4. Protect the innocent from persecution with the same zeal with which the guilty should be prosecuted;

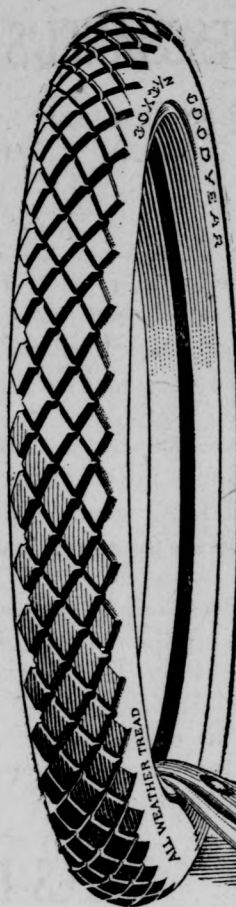

5. Observe and strictly comply with all the requirements of the Charter of Los Angeles county, including the provisions relative to Civil Service, and the rules and regulations of the Civil Service Commission of Los Angeles county."

Lyon is a tried public servant. He has practiced law in the county ten years, represented his district in the Assembly two terms and is at present State Senator. He is also City Attorney of Venice and a member of the law firm of Fredericks & Hanna. Lyon was born in Los Angeles county, is a Mason, Past Exalted Ruler of the Elks, a member of the Knights of Pythias and Past President of Los Angeles Parlor of the Native Sons of the Golden West.

That Lyon has stood on the right side of all moral and civic questions is shown by his record in the Legislature, and that he is competent to assume leadership is indicated by the many positions of importance he has been elected to by the Republican Party.

Lyon-for-District Attorney headquarters have been established in the Merchants National Bank Building, N. J. Cordary, formerly treasurer of the Republican County Committee, is the candidate's manager.—Adv.

## Low-Cost Mileage—Get It in Goodyear Small Car Tires

There is no economy in buying so-called bargains in tires offered at sensationally cheap prices when a well-made tire delivers mileage at a considerably lower rate of cost.

Add the time and trouble occasioned by frequent replacements and it is fully apparent why tire users, seeking real mileage economy, are not attracted to very cheaply priced tires.

The popularity of Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, is based on the fact that they are built to deliver exceptional mileage at low cost and consistently do so.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for true Goodyear mileage, value, economy.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size \$4.50 in waterproof bag

### THE AGE OF NEW THINGS

The mail is to be carried through the air, by fast-going planes, and the news from home will come before the mucilage is dry on the envelope. Right of way men are mapping out the routes, landing places are being selected, and the world will witness a revolution in quick transportation facilities. Trial trips of planes have frightened the farm animals, driven the barnyard fowls to their crops and brought forth protests from their owners.

Solomon was pretty well convinced that there could not be anything new under the sun. He assured his subjects that so far as he could see, by the aid of prophetic glasses, there was nothing new. The Indians of North America believed in a limited world. Chief Moses of the Northwest told his people that there was no country, or people, east of the Rocky Mountains.

Inventions are announced with rapidity that almost takes the breath away. Scientists are finding new sources of food; inventors are discovering new modes of travel and machines for saving labor. Necessity is finding new ways of doing almost everything. The man of yesterday is a stranger in the land of today. The man of tomorrow will look back on the men of yesterday and wonder how they lived.

This is the age of new things.

BRUSSELS.—Plans are now being completed for King Albert and Queen Elizabeth to embark for Rio de Janeiro next month.

### DIST. ATTORNEY WOOLWINE

Thomas Lee Woolwine, the dis-  
trict attorney, has opened an active  
campaign for re-election and as soon  
as the trial of Fred Mayne, alleged  
bunko man, whom Woolwine has  
been prosecuting in person, is finish-  
ed, the prosecutor will begin a series  
of speeches throughout the county.  
Woolwine will speak at the high  
school in Glendale, the exact date to  
be announced later. Woolwine is  
placing his candidacy for re-election  
before the people on his record in  
office. He has prosecuted vigorously  
and ably every crooked man or in-  
terest, say his friends, who insist he  
is entitled to the support of all good  
citizens. A "Re-elect Woolwine"  
club is being organized in Glendale.  
The membership will be announced  
soon.—Adv.

### ONE HUNDRED FEET OF HOPE.

A home building company in a mid-  
western city is marketing a large al-  
lotment in a rather unusual way. On  
each lot is put up a "knock-down"  
house, small but complete. House  
and lot are sold to the prospective  
purchaser on payments, so that he  
can move in at once before the lot is  
paid for.

This is in itself interesting and  
novel. But the really arresting point  
in the news is that these little tem-  
porary houses are built 100 feet back  
from the property line, "so that when  
the purchaser becomes financially  
able he may improve the front por-  
tion of his home site with a more  
desirable property."

There need be no delay due to tear-  
ing down the little house before he  
can build the big one, no delay be-  
cause he doesn't know where to live  
while his good house is going up.  
The little house is back at the end of  
the yard to begin with, and when the  
owner gets it paid for he can start at  
once to build a better home right in  
front of it. The old one can then be  
rented, or used for a garage or chil-  
dren's play house, workshop or what  
not.

There is something strangely  
cheering in the fact that this land  
company was so perfectly sure the  
owner would want to build a good  
home in the near future that it felt  
safe in going ahead with the little  
houses 100 feet back from the street.  
It argues faith in the thrift and get-  
aheadness of the average Ameri-  
can. It argues faith in the soundness  
of American conditions.—San Ber-  
nardino Sun.

# Why Not Increase Your Efficiency?

The average man of today is far below normal in efficiency. We see the proof  
of it on every hand. And the reason is that he is "clogged up." Take a  
machine: If the dirt that accumulates as the result of constant friction is not  
removed, the efficiency of the machine decreases until it becomes useless.  
Yet no machine compares with the delicate mechanism of the human body.  
The processes of tearing down and building up proceed constantly in the body  
with the consequent waste that must be removed. Retention of the waste  
matter in the human system engorges the intestines and colon, causing them  
to press upon other organs and hamper their functions; it causes fermentation  
resulting in digestive troubles and worse than all this, waste matter is ab-  
sorbed into the blood, carrying decay and disease into every part of the human  
system. Keeping the colon clean is the secret of perfect health, and there is  
one scientific and certain way to do this; by the use of

## "The J. B. L. Cascade"

Is an original and perfect appliance for administering an internal bath and the  
only thing of the kind ever especially designed for the purpose. Half a mil-  
lion people are using it today.

The "J. B. L. Cascade" is in itself a complete system of rational treatment  
that will enable anyone with ordinary intelligence to treat any form of dis-  
ease with the most flattering prospect of success. By this treatment the colon  
can be easily and scientifically cleaned.

The "J. B. L. Cascade" has given relief in chronic cases that failed to yield to  
other treatment. It both cures and prevents disease.

## NOTICE OF HIGH SCHOOL BOND ELECTION

Notice is hereby given to the qualified electors of Glendale Union High  
School District of Los Angeles County, California, that in accordance with  
the provisions of the Political Code of the State of California, an election  
will be held on the

16th Day of August, 1920

at the polling places named in the hereinafter designated precincts in said  
High School District, between the hours of 8 a. m. and 6 p. m. (during which  
period and between which hours the polls shall remain open), for the pur-  
pose of voting upon the question of issuing and selling bonds of said High  
School District to the amount of Sixty Thousand Dollars, for the purpose of  
raising money for purchasing High School lots, for building or purchasing  
one or more High School buildings, or making alterations or additions to  
the High School building or buildings, for insuring High School buildings,  
for supplying High School buildings with furniture or necessary apparatus,  
and for improving the grounds.

The said bonds proposed to be issued and sold shall be of the denom-  
ination of One Thousand Dollars each, and shall bear interest at the rate of  
six per cent per annum, payable semi-annually, and shall be numbered from  
1 to 60 consecutively, payable as follows, to-wit:

Bonds Nos. 1, 2, 3, each One Thousand Dollars, to run 1 year,  
Bonds Nos. 4, 5, 6, each One Thousand Dollars, to run 2 years,  
Bonds Nos. 7, 8, 9, each One Thousand Dollars, to run 3 years,  
Bonds Nos. 10, 11, 12, each One Thousand Dollars, to run 4 years,  
Bonds Nos. 13, 14, 15, each One Thousand Dollars, to run 5 years,  
Bonds Nos. 16, 17, 18, each One Thousand Dollars, to run 6 years,  
Bonds Nos. 19, 20, 21, each One Thousand Dollars, to run 7 years,  
Bonds Nos. 22, 23, 24, each One Thousand Dollars, to run 8 years,  
Bonds Nos. 25, 26, 27, each One Thousand Dollars, to run 9 years,  
Bonds Nos. 28, 29, 30, each One Thousand Dollars, to run 10 years,  
Bonds Nos. 31, 32, 33, each One Thousand Dollars, to run 11 years,  
Bonds Nos. 34, 35, 36, each One Thousand Dollars, to run 12 years,  
Bonds Nos. 37, 38, 39, each One Thousand Dollars, to run 13 years,  
Bonds Nos. 40, 41, 42, each One Thousand Dollars, to run 14 years,  
Bonds Nos. 43, 44, 45, each One Thousand Dollars, to run 15 years,  
Bonds Nos. 46, 47, 48, each One Thousand Dollars, to run 16 years,  
Bonds Nos. 49, 50, 51, each One Thousand Dollars, to run 17 years,  
Bonds Nos. 52, 53, 54, each One Thousand Dollars, to run 18 years,  
Bonds Nos. 55, 56, 57, each One Thousand Dollars, to run 19 years,  
Bonds Nos. 58, 59, 60, each One Thousand Dollars, to run 20 years.

That for the purpose of holding said election, the said Glendale Union  
High School District shall be and is hereby divided into four High School  
precincts, designated as follows, to-wit: Crescenta Precinct, Eagle Rock  
City Precinct, Glendale City Precinct, Glorieta Precinct. The said precincts,  
with their respective polling places and officers of election, shall be as follows:

### CRESCENTA PRECINCT

Shall consist of all that portion of the Glendale Union High School  
District included within Crescenta School District. The polling place therein  
shall be the Crescenta school and the officers of election shall be as follows:

Inspector: Belle F. Miller.  
Judge: Louise Erwin.  
Judge: Lawrence A. Potter.

### EAGLE ROCK CITY PRECINCT

Shall consist of all that portion of the Glendale Union High School  
District included within Eagle Rock City School District. The polling  
place therein shall be the Central School in said district, and the officers  
of election shall be as follows:

Inspector: G. N. Sprague.  
Judge: Edith M. Eckert.  
Judge: Carrie A. Roberts.

### GLENDAL CITY PRECINCT

Shall consist of all that portion of the Glendale Union High School  
District included within Glendale City School District. The polling place  
therein shall be the Glendale Union High School, and the officers of elec-  
tion shall be as follows:

Inspector: J. Rhea Baker.

### GLORIETTA PRECINCT

Shall consist of all that portion of the Glendale Union High School  
District included within Glorieta School District. The polling place therein  
shall be the Glorieta School and the officers of election shall be as fol-  
lows:

Inspector: Mary L. Lewis.  
Judge: Mary B. Woodruff.  
Judge: Elizabeth Darlington.

The said Inspector and Judges, above named, being competent and  
qualified electors of Glendale Union High School District, shall conduct such  
election at the time and in the respective places above set forth, and shall  
make return thereof pursuant to law. Each qualified elector of said Union  
High School District shall be entitled to vote only in the High School bond  
election precinct of which he is a resident.

IN WITNESS WHEREOF, we have hereunto set our hands this 21st  
day of July, 1920.

CLAUDE O. FULLAM,  
BLANCHE A. GARDINER.

High School Board of Glendale Union High School District, Los Angeles  
County, California.

The Prohibitionists ought to be told that Ohio still has a few  
men not nominated for president.

## RETURN FROM TAHOE

MR. AND MRS. E. M. BALES HAVE FINE FIVE WEEKS' TRIP

E. M. Bales and wife of 323 North Jackson have returned from a five weeks' auto trip taken in company with friends from Hollywood. They left June 24th and went up the coast, then over to Sacramento and on by way of Truckee to Lake Tahoe. They camped out every night but one and that they spent in the hotel at Truckee. They spent most of the time around Lake Tahoe, at Meigs Bay, Tallac and other well-known spots. On the way back, the first night they camped 7300 feet above sea level and water in their wash basin froze. They started from that camp shivering, but in a few hours they were at Sacramento, 30 feet above sea level, with the mercury at 96 in the shade. They returned via Placerville, coming directly to San Jose from there to San Jose, then on down the coast.

Not an accident of any kind marred the trip until they were nearly home. Just this side of San Fernando they had a puncture of one tire. Gasoline was plentiful at most stations. The highest price paid was 45 cents. The mountain roads are wonderful, Mr. Bales said. About Placerville they are not macadamized but are like the roads in Griffith Park, and are sprinkled every day.

The speedometer registered 1442 miles for the trip, said Mr. Bales.

There is a slump in the price of wool, but it does not affect the cost of cotton suits.

Geography publishers must view constant changes in the frontiers of Central Europe with delight.

## HOUSE GUESTS

MR. AND MRS. C. TURCK ENTERTAINING NIECE AND GRAND-DAUGHTER FROM CHICAGO

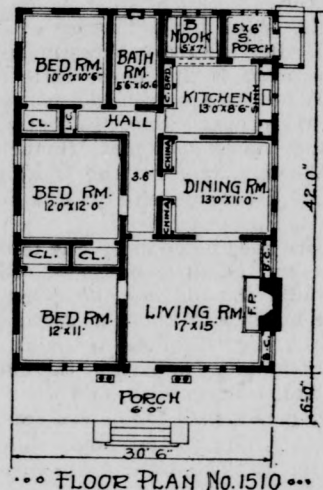

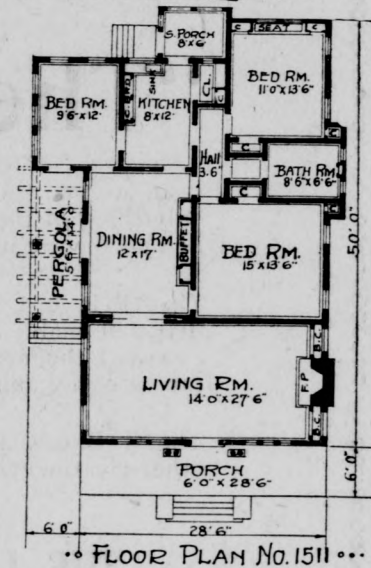

Little Margot Buxton, granddaughter of Mr. and Mrs. Charles Turck, who arrived last week from Chicago, came in care of Miss Viola Sayre, the painter of miniatures, who is here for her annual summer visit with her parents, Mr. and Mrs. H. N. Sayre, of 914 South Central avenue. Early this morning Mr. and Mrs. Turck, Miss Greene, niece of Mrs. Turck, her grand-daughter Margot, and Miss Sayre left by auto for a day at Hermosa Beach. Miss Greene says that one of her friends who is sojourning in California has received letters from her husband in Denver telling her that she may be thankful to have earthquakes instead of strikes to contend with; that all the Denver streets have been covered with tacks to damage automobile tires, and that conditions there are worse than can be imagined without having actually experienced them.

## MISSIONARY PICNIC

The Women's Missionary Society of the First Congregational Church of Glendale held its annual picnic at Brookside Park Thursday. About forty were in attendance. No program was provided. It was simply a day of out-door recreation and good fellowship. A good many of the picnicers played in the pool and entertained themselves with other diversions of the park. Luncheon was served at 12:15 and the ladies returned to Glendale about five p. m. The affair was arranged by Mrs. C. M. Van Dyke.

Advertiser it, or advertise for it in the Evening News.

## HOMELIKENESS

Is the chief feature of the Colonial Bungalow, which is shown here. It is one of the hundreds of homey and convenient models which our plan book service includes. A study of the two floor plans, either of which may be used with this model, will impress you with the convenient arrangement of the rooms and the roominess of the bungalow.

## LEGION'S CHANCE

Through its nation-wide organization, including men whose linguistic abilities cover virtually every tongue spoken in Europe, the American Legion is about to undertake voluntarily a task which entitles it to the respect and thanks of the entire country.

It is proposed to obtain from the immigration authorities the names and destinations of all immigrants arriving in this country, then to notify the Legion Post nearest to that destination in order that the war veterans may help the newcomers to settle down and start right "on the side of law and order."

No better aid in solving the immigration problem could be given than by such an effort. Negligence in the past has resulted in building up of colonies of aliens in many sections which are as foreign in everything as in the nativity of the members. If the new work shall be carried on intelligently and sympathetically—and there is no reason to doubt that it will be—it should have a profound effect upon the assimilation of the rising tide of immigrants within ten years.

## WOMAN TAKES VACATION CLIMBING MOUNTAINS

PORTLAND, Ore., Aug. 13.—(United Press.)—Miss Henrietta McKaughan, reporter for a Portland newspaper, didn't follow the beaten path when she took her vacation.

Dressed in man's attire and with man-size pack on her back, Miss McKaughan started out for the Olympic mountains over a transportation route which included train, boat, stage, canoe—and shank's mare.

"I'm starting ahead of the Seattle Mountain Climbing club, which is going to cross the Olympics this summer," said the young newspaper woman, "because I don't want to follow their beaten trail and walk over their leavings."

It will be hard for a lot of defeated candidates to return to honest toil.

In these days of high rents that white house proposition looks unusually good.

## If You're Just a Bit Inquisitive

as to the care we will exercise in moving your goods from where they are to where you want them to be ask your fellow townsmen about us. They'll tell you that our up-to-date, down-to-the-dollar method of doing business will please you thoroughly.

## RECOGNITION AMONG BEES

Naturalists for a long time were at a loss to understand how it was that insects were enabled to so quickly recognize an intruder among their family or settlement. It has been determined that in most cases they recognize each other by smell. Among the bees each distinctive class of workers—the guard, the fanner, the pollen carrier, the waxmaker, the architect, etc.—has its own distinctive odor. And besides each bee has its own separate hive odor, which is its passport into its own particular home.

Advertise for it in the News.

Sierra Club Beverages are drinks that the hostess loves to serve; drinks that the soda fountain, restaurant, club and cafe patron calls for, because they are just a little more stimulating and refreshing, with a flavor just a little more delicate and delicious.

The secret of it lies in the ingredients used and the manner of making. Take a bottle of Sierra Club Ginger Ale. It consists of 8 ounces of the purest, coolest water, aerated, one and a half ounces of the best cane sugar, further purified in our plant, Jamaica ginger and juices of the orange, lemon and lime, all mingled scientifically in a perfectly sanitary plant.

Sierra Club Beverages are clean, pure drinks, possessing food value—they stimulate the system and digest naturally.

Keep a supply of Sierra Club Ginger Ale, Cherry, Orange, Lemon and Grape Punch in your refrigerator.

## TRAVEL NEWS

MRS. RUBY SMART REPORTS  
LETTERS FROM MISS GAUNT-  
LET AND MRS. ROOT

Mrs. Ruby Smart of 110 Olive St. reports the receipt of a letter dated at Honolulu from Miss Frances Gauntlet, who is now on her way to Japan. She wrote she had enjoyed a very pleasant voyage and had not been at all seasick.

Another interesting letter Mrs. Smart had just received was from her daughter, Mrs. W. D. Root, who went east a short time ago to return to Georgia a couple of state wards. In obedience to instructions she has visited the juvenile courts in Washington, Philadelphia and New York to observe methods and when she wrote was about to leave for Chicago where she will have the pleasure of a visit with two sisters who reside there. It has been a profitable trip because in addition to her duties she has been able to see and hear much that was of interest to her. On her way home she will stop in Denver and possibly other large cities.

## THE LOVE OF ADVENTURE

News dispatches tell of the arrival of Roald Amundsen, Norwegian explorer, in Nome, Alaska, where hundreds of telegrams from all parts of the world were waiting for him. He will continue his journey into northern waters in the Maud, the vessel in which he sailed from Norway in 1918.

Love of adventure clings to every person having red blood in his veins. It was love of adventure that sent the first navigators across the unknown waters to America. Love of adventure led the forefathers of the present generation into the wilderness, the initial step toward development of the greatest nation on earth. Yes, we read over and over again the stories of Daniel Boone and other pioneers and sometimes wish there were a new land for us to explore.

There are many theories about the supposed north country, with its unexplored regions, unexploited resources and undeveloped territory. Then, there is a lingering curiosity about the people who may be living in that frozen land. What is there amid the icebergs? Where is the end of the land? What lies beyond the point of navigation? All those questions are being asked and some day may be answered by the men who explore that country.

Pistols with hymn books as pew equipment are suggested by that Kentucky church shooting.

## WATCH YOUR—TONGUE

School boys and girls who struggle in their grammar lessons with such terrifying enemies as "attributive complement, predicate adjective, anticipatory verb," and other equally mystifying specimens of grammar terminology will be glad to learn that, according to a recent writer on the subject, "English grammar, as it is now taught, should be dropped entirely from our schools."

Against the formal teaching of grammar as a "thing of laws, rules, ordinances, by-laws and exceptions; an unscientific, illogical, inflexible dictum, which forces children to decline nouns in cases which do not exist, to conjugate verbs in tenses, moods and voices which long since have ceased to be, and to make adjectives agree with nouns when agreement is neither necessary nor possible"—against all this emphasizing of the letter and killing of the spirit the writer makes a strong case.

Perhaps the discarding of mental gymnastics would come as a relief to the teacher no less than to the pupil. Almost every teacher who is at all familiar with the speech habits of school children outside of the class room has come to see the futility of the empty drilling and parrot-like reciting of the grammar hour. It is now admitted on all sides that we have in the past over-emphasized parsing and conjugating and that more recent device for the torture of the school child's mind, known as diagraming. This is evidenced by the fact that the teaching of grammar as it was practiced 25 or 30 years ago, has been supplanted in a large measure by methods less irksome and more fruitful to both teacher and pupil.

We can not afford to be less diligent in our efforts to correct slovenly speech habits and to preserve the purity and effectiveness of a language in which is written so much of the world's best literature, and which is the most widely used tongue in the world. If it is our intention to preserve the English language, and not merely to pad a school curriculum, it should be impressed upon the pupil that cultural and commercial opportunity depends in a great part on one's knowledge of his mother tongue and on a desire to use this knowledge to the best of his ability. Slovenly speech, the pupil should be made to understand, is as likely to bring the user of it into disrepute as is slovenly appearance in the matter of his clothes. To this end the home can greatly assist the school.

**AGENTS TAKE NOTICE**  
The property at 430 Vine Street  
has been taken off the market.

**NOTICE**  
Owing to the increased cost of ice  
manufacturing and delivery, it be-  
comes necessary to raise the price of  
ice to the Glendale consumer, from  
60 cents per 100 pounds to 70 cents  
per 100 pounds, which price will be  
effective on and after Monday, Aug-  
ust 16, 1920.  
(Signed) CRYSTAL ICE DELIVERY

**SUNDAY EVENING, 7:45**  
Hear Prof. F. W. Lough at the  
First Methodist Church. Subject,  
"The Tobacco Problem." Every lad  
and his dad ought to hear this mes-  
sage.

**ICE NOTICE TO THE PUBLIC**  
On account of the extra cost of de-  
livery and hauling due to the raise  
in gasoline, the price of ice will be  
raised to 70c a hundred, delivered,  
and 60c on the platform, beginning  
Monday, August 16. No 10c cuts  
either on the platform or from the  
wagon. Platform opens at 8 a. m.  
and closes at 7 p. m. Open until 10  
a. m. Sunday. No deliveries on Sun-  
day. Independent Ice Co., Glen. 217.

**FOOD SALE**  
The Women's Guild of St. Mark's  
Episcopal Church will hold a food  
and fancy sale tomorrow, Saturday,  
at Neale & Gregg's Hardware Store.  
All donations should be in by 10:30.

**NOTICE TO ST. MARK'S CHOIR**  
It has been decided to suspend  
choir rehearsals during the month of  
August. They will be resumed Tues-  
day evening, August 31 at the church  
at 8 p. m., and Friday evening, Sep-  
tember 3, at same place and time.  
A full attendance is desired at these  
rehearsals in order to prepare for a  
special musical program for the open-  
ing Sunday.

The undersigned will be glad to  
hear from singers desirous of joining  
the choir. Phone Glendale 1237-R.  
D. RIPLEY JACKSON,  
Musical Director.

## Personals

Miss May Cornwell of North Kenwood has gone to Balboa for a week.

J. W. Feinstein and family moved yesterday from 1234 Viola to 510 West Broadway.

Wm. W. Krutsch is having a five-room house and a garage built at 407 Gilbert street, to cost \$2200.

W. B. Dart and wife have moved from 600 East Lomita to the house just completed for them at 816 East Lomita.

Contractor J. J. Burke has just commenced a 4-room house at 537 West Doran for R. G. Cate, to cost \$2905.

A house has been commenced at 316 Vine street for G. A. Stanford. It is to have five rooms and the cost is given at \$3750.

Mr. and Mrs. T. A. Wright of N. Louise street left Glendale this morning to camp for two weeks at Long Beach.

E. Nagle has contracted with C. G. Martin to build him a 5-room house and a garage at 368 West Doran, to cost \$4400.

The residence of Mrs. Amanda M. Loveall, at 126 East Park avenue, is undergoing repairs and the addition of a screen porch, the entire improvement to cost \$1400.

Mrs. Arthur Campbell, who has been spending a month at Manhattan, has been up for a visit with her sister, Mrs. Dan Campbell, of North Glendale.

Mr. and Mrs. Roscoe Salisbury of 106 North Central avenue, and their daughters, Miss Maude Salisbury and Mrs. Frank Parsons, are spending the week at Hermosa Beach.

Mr. and Mrs. H. E. Spafford and children of Dallas, Texas, are here for a month's visit with his parents, I. J. Spafford and wife, of 119 N. Central avenue.

S. C. Maranville and wife have moved into the house at 1339 South San Fernando Road and will begin at once the erection of a new residence at 1515 Gardena avenue.

Mrs. Stubbs of 408 Arden reported to the police yesterday that her house was entered the night before and ransacked all over. A gold watch, a camera and some money was taken.

Mrs. Fannie B. Crouch of 916 N. Central avenue, who recently sold her property there, is having built for her occupancy a 5-room residence and a garage at 515 North Maryland avenue, to cost \$4000.

Another new house is going up on far-out Alexander street at 508, close to two others he is having built there, for J. P. Stanford. The cost is given at \$2905 and C. G. Martin as the builder.

Prof. Merrill of the University of Chicago, and Mrs. Merrill, who are spending the summer in North Glendale, have been made happy by the receipt of a telegram announcing the birth of a grandson.

Mr. and Mrs. W. W. Worley and son Charles left today by the early boat for Catalina where they will be guests for the coming two weeks at Hotel St. Catherine. They are planning a very quiet time in which to rest and recuperate from their late indisposition.

Mr. and Mrs. J. I. Bolson and their four children, who have been visiting Mrs. Bolson's mother and sisters, Mrs. Susan and Misses Amelia and Katherine Weisling of 621 East Colorado, start tomorrow on the return to their home in St. Louis. Their relatives think they will come back to locate next spring.

Born, Aug. 10, 1920, at the home of Geo. Duffet and wife, 321 Vine St., an 8½-pound boy to Mr. and Mrs. Dan Bruce. Mrs. Bruce, who is known on the stage as Margo Duffet is a daughter of Geo. Duffet. She closed her season at the Palace Theatre in Chicago on July 1st. Mr. and Mrs. Bruce played in one of the Los Angeles theaters last March.

Mrs. Rena W. Curl has contracted with Contractor C. G. Martin to build for her two 2-room residences, to cost \$1015 each, one at 363 Patterson avenue and the other at 344 Milford.

Mr. and Mrs. H. A. Wilson and Dr. and Mrs. Charles R. Lusby left this morning for the north for a brief visit with Lloyd Wilson, brother of Mrs. Lusby, who is a rancher at Hanford.

Mrs. Harold Salisbury is recuperating from a nervous break-down which she suffered four weeks ago. She thinks the excitement of selling her home and directing the building of a new one were too much for her.

Mr. and Mrs. W. S. Halliwell, 603 West Broadway, are leaving Monday for Missouri and do not know how long they will be gone. The illness of Mrs. Halliwell's sister has called them east.

Mr. and Mrs. Noble Ripley, who reside at 121 West Garfield avenue, are the very happy parents of an 8-pound little girl born Thursday morning, August 12, 1920. She has been named Dorothy Jeanne Ripley. Mother and child are doing well.

Miss Eunice Peart of 111 East Elk avenue is entertaining a group of about twelve young people from Los Angeles this evening in honor of a fellow employee in the Federal Reserve Bank, Miss Ferguson, who is about to return to her home in Canada.

At the Widmeyer Agency cards have been received from Mr. and Mrs. Thomas G. Widmeyer, who left here two weeks ago bound for Alaska. They have not yet reached their ultimate destination the cards being dated at Ketchikan. They are expected home about the 25th.

Mr. and Mrs. Robert Kimball of 315 West Garfield avenue were guests Wednesday night at a dancing party given by Los Angeles friends. Saturday they expect to take in the annual high jinks of the Hotel Credit Men's Association at Hotel Virginia, Long Beach.

Miss Anabel McClennan of 126 N. Central avenue leaves Tuesday for Mills College, which opens on the 17th and in which she will be a junior the coming year. It is opening earlier than usual that the first semester may be completed by the holidays. It will make the school year end in May.

In honor of Mrs. Fairbanks of Hollywood, an old friend and guest of Mrs. Blake Franklin, she and her family in company with Mr. and Mrs. J. H. Franklin, Mrs. Mabel Franklin Ocker and Mrs. Frank Head and two children motored to Griffith Park Wednesday evening and there enjoyed a picnic supper.

Mrs. C. A. Salyer, accompanied by Dorothy and Teddy, has been visiting her sister, Mrs. Pelley, for a few days. The Salyers have been staying at Venice the past few weeks, but are now looking for a home in Glendale. They have been sold out of an abiding place five times already this year.

Miss Elizabeth Cadd is at Bear Lake for two weeks, visiting a cousin, Mrs. Miller. She has worked so hard with the music class she was teaching the past few weeks that she was well nigh worn out. She writes her mother that the bathing and boating are fine, the weather cool and pleasant and she is gaining in health and strength.

## SALE OF SMOCKS AT H. S. WEBB & CO.'S

Would you like another pretty smock or two? Then you will be interested in the lower-price sale which is in progress here, for the special offering this week is smocks. Every smock in the house, values up to \$10, is marked for this sale at \$4.75. The reduced prices we are offering on other lines are proving attractive too. H. S. Webb & Co.—Adv.

## TRUSTEES' MEETING

(Continued from Page 1)  
son, policies on the branch library building at Brand boulevard and Los Feliz Road and the city hall and fire house at the same location were ordered to be renewed.

The City Manager reported on the bids for supplying brass goods to the Public Service Department, recommending the acceptance of the bid of Price-Corcoran-Pfister Co. on 350 5-8 inch curb cocks, 82c each; 30 1-inch curb cocks, \$1.65 each and 200 ¾-inch lead and iron unions, 54c each; and bid of James Jones Company, 200 3-4 inch corporation cocks, lead flanged coupling, \$1.73 each, 40 1-inch curb cocks, \$2.52 each; 200 3-4 inch lead and iron unions, 70c each; 40 1-inch lead to iron unions, 95c each.

On motion, recommendations of City Manager were adopted and bids ordered to be accepted in accordance therewith.

The Engineer of the Public Service Department reported that the Southern California Drilling Company has completed its contract for drilling a 500-foot well in accordance with plans and specifications and recommended the acceptance of the work. On motion of Trustee

honestly and efficiently. Mr. Coker is not a politician. He has lived in Glendale seventeen years, has always helped to keep Glendale clean. He knows also the needs of the great San Fernando Valley.

## Health Is Possible!

Chi-ro-prac-tic takes off the brakes. Nerve pressure prevents the flow of vital force. Chi-ro-prac-tic takes away the cause—Nature then produces the desired effect. Whenever vital organs work badly or you have so-called trouble with your heart, lungs, bronchial tubes, stomach, liver, kidneys, intestines, bladder, uterus, etc., Chi-ro-prac-tic has shown that the spine or back-bone is almost invariably at fault. The proof lies in the thousands of cases successfully handled by Chi-ro-prac-tic.

AFFECTIONS OF any of the following parts may be caused by nerves impinged at the spine by a subluxated vertebra:  
BRAIN  
EYES  
EARS  
NOSE  
THROAT  
ARMS  
HEART  
LUNGS  
LIVER  
STOMACH  
PANCREAS  
SPLEEN  
KIDNEYS  
SMALL BOWEL  
LARGE BOWEL  
GENITAL ORGANS  
THIGHS & LEGS

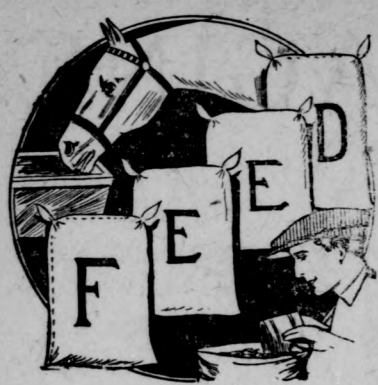

The quickest and safest way to overcome so-called internal bodily disturbances of any kind is by Chi-ro-prac-tic spinal adjustment to the particular joints of the backbone, which by their displaced conditions interfere with the passage of the Creator's vital force through the nerves to the particular organ concerned.

## COLUMBIA RECORDS

**MARION HARRIS IS THE  
MODERN "BLUES" DOCTOR**

The up-to-date cure for the "blues" seems to be the modern "blues" song. On this basis Marion Harris is one of the greatest doctors of today. This attractive little vaudeville artist has agreed to make records exclusively for Columbia. Her first four Columbia Records to be taken as prescriptions for the "blues" are: "Left All Alone Again Blues" from The Night Boat, "Everybody but Me," "The St. Louis Blues" and "Homesickness Blues."

Al Jolson's song, "In Sweet September," describes the loss of his heart. He sings on this Columbia Record of the mischief and mandolin, flowers and fervor with which a smiling, beguiling maiden worked the charm. This song is coupled with Frank Crumit's "Early in the Morning (Down on the Farm)" with its unique "barnyard accompaniment."

"Somehow," the fox-trot in which Ted Lewis leads his famous Jazz Band for Columbia Records this month, is all his own in many ways. He not only composed the music and leads his band, but plays the saxophone in it as well. This selection is coupled with the medley fox-trot, "I Know Why," by Morrison's Jazz Orchestra.

### PROBLEM OF EDUCATION

A wave of interest in education is sweeping Mexico and even the most lowly classes of the people are eager for enlightenment, a news dispatch from that country says. This is a gratifying symptom. Mexico needs education more than any other element of civilization. When the school house is substituted for the barracks, the barracks will be unnecessary.

In the meantime it is worth while to note that the United States is moving ponderously toward those education reforms that recent months have disclosed as imperative. Nevertheless, in broad view, we are still halting deplorably. The Smith-Towner bill, which sincere friends of education count upon as essential to intelligent progress, still faces an uncertain fate after months of congressional buffeting. There is, in some quarters, misunderstanding of the purpose of the legislation, and fear has been expressed that it is designed to throttle the states in their long exercised control of the public school system.

Of course, the Smith-Towner bill proposes to do no such thing. It establishes a federal department of education, whose secretary would be a member of the president's cabinet, and would appropriate \$100,000,000 to the states in fixed ratio upon their appropriating dollar for dollar to achieve certain well-defined purposes. Among these items are:

The education of 8,000,000 illiterates.

Americanization of the foreign-born.

Furthering of physical education.

The training of teachers.

How desperately the country is in need of progress in these fields recent events have made painfully clear. The states would welcome federal co-operation in ministering to these national needs.

Education is one of the greatest domestic problems the nation must face within the next two years and the attitude of the political parties to the school and the teacher deserves the consideration of the thoughtful voter.

### DESCRIBING HIM

"Public-spirited, is he not?"

"Very! Why, he keeps so continually busy telling the rest of what ought to be done for the advancement of the town, that he never has time to do anything himself toward that end."—Kansas City Star.

A French painter has destroyed all his pictures because people did not seem to show much enthusiasm over them. This is the self-sacrificing spirit we would like to see inculcated in the spring poet.

## Bentley's Building Service

is at  
**Your Service**

There never were so many Glendale people building homes, planning homes or building for income purposes as now. Are you among them? If you are, you will appreciate the service we are organized to render. Others have appreciated it. Our service includes:

Prompt deliveries of materials which greatly facilitate the work of building.

Files which we place at your disposal containing photographs of hundreds of homes accompanied by floor plans, from which you may make a selection.

We put you in touch with reliable contractors who will make you reasonable terms and whom we can recommend to do the right thing by you.

### RESOLUTION NO. 1115

A Resolution of the Board of Trustees of the City of Glendale ordering the removal or destruction of dirt, rubbish, weeds and rank growths from certain lots and grounds and from the sidewalks opposite thereto.

WHEREAS, The Board of Trustees of the City of Glendale did on the 15th day of July, 1920, pass a Resolution No. 1108 declaring their intention to order the removal or destruction of dirt, rubbish, weeds, and rank growths from certain lots and grounds therein described and from the sidewalks opposite thereto, and

WHEREAS, The hearing of objections to said proposed work was regularly fixed for this time;

NOW THEREFORE, The Board of Trustees of the City of Glendale do resolve as follows:

Section 1. That no owner of or other person having any interest in any property liable to assessment for the work or any of the work described in said Resolution of Intention No. 1108 has made any written protest against the proposed work.

That no work described in said Resolution of Intention No. 1108, or work similar in all respects thereto has been done or performed to the satisfaction of the Street Superintendent or in accordance with the description of such work in said Resolution of Intention, or at all, as to any grounds or lots described in said Resolution of Intention.

Section 3. That this Board hereby orders the Street Superintendent of the City of Glendale to have done all the work described in said Resolution of Intention No. 1108.

Section 4. The City Clerk shall certify to the passage of this Resolution and cause the same to be published by one insertion in the Glendale Sentinel-Progress, a newspaper of general circulation published and circulated in the City of Glendale.

PASSED by the Board of Trustees of the City of Glendale this 12th day of August, 1920.

HARTLEY SHAW,  
President of the Board  
of Trustees.

STATE OF CALIFORNIA, )  
( SS.

COUNTY OF LOS ANGELES.)  
I, J. C. Sherer, City Clerk of the City of Glendale, do hereby certify that at a regular meeting of the Board of Trustees of the City of Glendale the foregoing Resolution was passed by said Board of Trustees by the following vote, to-wit:

Ayes: Bartlett, Henry, Robinson, Shaw, Stephenson.

Noes: None.

Absent: None.

WITNESS MY HAND this 12th day of August, 1920.

J. C. SHERER,  
City Clerk.

More room is needed at once at the High School. Vote for the bonds August 16th.

## SEWER SYSTEM

ADDITIONAL VITAL FACTS ON  
SUBJECT PRESENTED BY  
MR. OLMSTED

In addition to the explanation given in The Evening News of Friday, July 29, concerning the proposed sewer system for Glendale, I wish to say that Glendale is generally underlaid with a porous subsoil that has provided an available and up to this time a fairly economical cesspool method of sewage disposal.

There is generally in individual affairs a penalty for not doing the right thing or in doing the right thing in a slipshod makeshift way. It is not different with municipalities. No matter how attractive and satisfactory any course of action may seem, if it is intrinsically wrong and vicious there will come a day when the penalty will have to be paid.

This cesspool sewage disposal is of such a nature that while it can be used effectively on ranches or where the population is a few hundred, when the population reaches 5000 or 10,000 or 15,000, it is wrong for the following reasons:

First: No matter how porous the gravel strata is, it is finally sealed up with festering deposits that like the old-fashioned privies defy the bacteria and remain for years a mass of undigested corruption. Certain business district lots in Glendale have had almost every available square foot of area outside the buildings so polluted, and in some cases even under the buildings this condition exists. The fetid air of unsewered Mexican towns rests during certain atmospheric conditions over the towns like an unwholesome vapor and under ordinary atmospheric conditions can be distinctly sensed by any stranger coming in from the country. No military encampment of 15,000 soldiers would be allowed for six months without a sewage collection system and disposal works (no matter what the subsoil conditions were) in the United States, England, France, Japan or any wide awake nation.

Second: The more porous the sub-soil the more danger of water supplies below becoming contaminated. For instance, the Los Angeles water supply is not much farther away from our cesspools than the Verdugo settlers are from our gravity water supply, and as we do not relish having porous strata above us charged with human excrement and urine, why, then, should we feel at liberty to maintain 3500 cesspools above the Los Angeles water supply? It is not right and we should not feel at liberty longer to do this.

Third: There comes a time in the growth of a city when a sewer system is demonstrably cheaper than cesspools. No one will claim that cesspools are other than temporary expedients. The sanitary engineers employed by Glendale have estimated that taking the whole city into account, the cesspools have an average life of six years and an average cost of \$45. The 3500 cesspools in Glendale then will require an annual expenditure of \$26,000 to maintain them.

At this time Glendale, in addition to having a very objectionable system of disposing of its own wastes and jeopardizing the character of its own pump water supply and the gravity water supply of the city of Los Angeles, is also annually paying out as much money for this menacing program as the interest and sinking fund on the bond issue proposed amounts to.

I do not mean by this that in 1921 the cost of operating the system proposed, the assessments on all the local districts and the interest and sinking fund, would not be greater than the annual cost of cesspools, because this would not be true, but with the present growth of Glendale continued for another five years, then the total annual charges of all kinds for a first-class sewer system will be less than the total cesspool charge. Every year the sanitary situation and the financial aspect with cesspools will show worse.

Fourth: The social and political reputation of a Southern California city suburban to Los Angeles, with 15,000 inhabitants and no sewers is a heavy handicap to future growth of the right kind.

These four reasons are sufficient to condemn the cesspool system for the future Glendale. There is no inclination on my part to criticize any one who has in the past advocated, no who even now advocates cesspools.

My position is that we have reached a point in our growth where we must at once take up the matter of this improvement in a vigorous way for our own protection and for our own interests.

We could annex to Los Angeles, and while this would be by far the most expensive solution so far as dollars and cents are concerned, still there are those who favor doing this. In case of annexation, the interest and sinking fund Glendale would annually have to provide to meet the tax on the Los Angeles sewer, water, harbor, power and electric bonds, would be \$59,125. This might be appreciably reduced by returns from power revenues of Los Angeles and might not be. The total cost of connecting with the Los Angeles sewers would not be less than \$200,000, and might be much more.

The city of Los Angeles faces in the immediate future an expenditure of some \$3,000,000 for sewage disposal

works and \$2,000,000 for duplicate outfall sewer with an additional amount for enlarged interceptors, say \$6,000,000. The proper proportion of this, of course, would become a charge against Glendale in case of annexation.

In case Glendale desired to annex to Los Angeles, this additional sewer expense would probably be warranted, but certainly it cannot for a moment be considered so attractive a proposition financially, as to be considered an argument for annexation.

The opportunity for providing proper disposal grounds for Glendale's sewage is much better now than it will be in one year or more in the future.

The system proposed, as can be seen from the map, embraces three pump lifts and an ultimate disposal in Scholl Canyon. This should be taken over as a public park and could be made with sub-irrigation from the sewage effluent, one of the garden spots of Southern California.

The opportunity is ours to do something really worth while if the people of Glendale will thoroughly post themselves on the subject and act energetically.

The plans proposed call for a bond issue of \$350,000. In addition to this there would be approximately \$0.85 for every foot of frontage which would be paid in ten annual installments.

The average assessed value of improved property in Glendale is about \$1000. The yearly taxes necessary to take care of interest and sinking fund on the bond issue would be 49 cents per \$100 or \$4.90 per \$1000 valuation. On a 50-foot lot the assessment district tax would be approximately \$4.25 or combined, a householder on a 50-foot lot whose property is worth \$2000 and which is assessed for \$1000 would pay a total sewer tax of \$9.15 per year as against \$7.50 a year for cesspools, with the comparison every year becoming better for the sewers and worse for the cesspools.

The annual power pumping charge for the three lifts at current rates would be \$11,400. With a water duty of one miner's inch to five acres, 290 acres could be irrigated at a cost of \$2.25 per inch hour which for such a sheltered nook is reasonable. This cost of pumping and water delivery would only be taken on gradually as the different districts were connected up.

Yours very truly,  
OLMSTED & GILLELEN,  
By Frank H. Olmsted.

### SOLDIERS GO BACK TO LAND

The Soldiers' Settlement Board of Canada reports making 7,195 grants of free land to ex-service men. About one-half of the men exercised the rights of civilians in taking an additional quarter section. The total area of land given to the soldiers since the war now is 1,726,800 acres. The new farmers propose living on the land, cultivating the soil and growing crops.

There is something pleasing about the young man going back to the farm. Farming is the oldest, most healthful and ought to be the most profitable of all legitimate vocations. Many wage-earners of the city are waiting for the time when they can go back to the farm. They know the people of the cities need all the products the farm can grow and that the prices to consumers are too high because the supply is not large enough. So they look upon farming as a duty and a mark of loyalty.

In this age of uncertainties it is well for all to look over the offerings in land. The opportunities for home-making are not all gone. There are opportunities in agriculture in all farming districts of the nation. And there are people in all large cities anxious to get back to the land. They are not satisfied with the uncertain, artificial existence as wage-earners.

### CREWS DESERT SHIPS FOR BOOZE

MONTREAL, Que., Aug. 13. (United Press.)—Sheds and freight houses on the wharves and piers of Montreal are now placarded with warnings to sailors not to desert their ships while in Canada's largest and wettest port.

The warnings are the result of a campaign by the Shipping Federation and local police to put an end to the numerous desertions occurring when vessels reach this port, which in the last few weeks have left many ships with only part crews for their return voyages.

Cheap railroad fares to the harvest fields of Western Canada, big wages and whiskey are given as the reasons for desertions.

### A FRENZIED FINANCIER

Extraordinary publicity has been given to the scheme of operations by which Charles Ponzi of Boston is alleged to have made millions. He refuses to divulge the real secret of operation, further than that it consists of remittance of postal coupons from Europe which are bought with depreciated European currency and redeemed on this side in American money at an enormous profit, owing to the difference in exchange. No one has yet discovered the joker and only a complete audit will show whether Ponzi has paid dividends directly out of deposits.

# 150 Homes Wanted!

Last week a Glendale man advertised a four-room house for rent. He states that he received inquiries from 150 people who are hunting homes, in reply to the ad.

## Does That Mean Anything to You?

Of course, that number doesn't represent half of those who want to rent.

**Does it look as if it would pay you to build a house, a bungalow court, or an apartment house on that vacant lot?**

We are at the service of those who wish to help along the movement to provide Glendale with more homes. We have been building up a strong organization of architects, engineers and craftsmen of every kind who have the art of building down to the fine point.

## GLAD TO BE HERE

MRS. MANUEL GLASS, NEW-COMER, PLEASSED WITH NEW HOME

Manuel Glass recently came to Glendale from Philadelphia, Pa., and bought the Thomas place at 918 E. Wilson avenue. Their son-in-law and daughter, Mr. and Mrs. Luca Ferriola, and their two children, also a younger daughter, Gwenith, live with them. Mrs. Glass is very much pleased with her new home and surroundings. She says we out here have no idea of the extent of the California fever in the East. Fifteen families in her neighborhood were packed up to move out to the coast when she left and it has become so when anyone goes to the bank to draw out a considerable sum of money, the invariable remark of the paying teller is, "So you are going to California, too, are you?" Glendale is nearly as well known in Philadelphia as is Los Angeles, owing, Mrs. Glass said, to the Seventh-day Adventist people, who tell, wherever they go, of their fine Sanitarium here and the beautiful surroundings it has—not boastfully but simply as a matter of common remark. The earthquakes, or rather the grossly exaggerated accounts of them in Eastern papers, alarmed many who intended coming out here and caused some to change their minds, said Mrs. Glass, but they will soon get over it and thousands of families will head westward before winter comes. She says it is not only the climate that draws them but the reports of cheaper living and the many fine people one can meet out here on every hand.

## BOLSHEVIKI MUST BE CHECKED

Since that moment three years ago when the Bolsheviks seized control in Russia, the cut-throat government has been openly hostile to orderly civilization. Although it has been ready at all times to make contracts, it never has concealed its purpose to ignore any obligation that it might assume if it suited its plans to be recreant. It is utterly without honor and so incapable of entering into agreements. Yet for months, ever since the armistice in fact, efforts have been made in certain European capitals to come to terms with the Lenine-Trotsky tyrants and terrorists. Almost up to the present moment some statesmen have been willing to bargain with the Bolsheviks, knowing full well that the original objects of the Bolsheviks remain today the paramount aims of that crowd.

The Bolsheviks will be satisfied with nothing less than the destruction of orderly government throughout the civilized world. They are public enemies to be fought or to be bottled up and permitted to die out. They have been all along the menace to the world that they are today. But it is only now, when the valiant armies of Poland find themselves unable longer to cope with the Russians, that the entente governments are preparing to move to the protection of themselves and all others threatened by the Red hordes. Poland is to be given military support. A long and bloody war is in prospect. Fanatics of the Bolshevik type will not surrender after a few defeats. They will fight on, as they have done for more than two years. And it must be admitted that their power of resistance has been markedly increased through the paltering with them of which certain powers have been guilty.

There is probably great rubbing of hands in Germany over the advance of the Bolshevik armies. The German rejoices as he hears of the crumbling of the Polish lines and of armistice maneuvers—not that he takes joy in soviet successes as such, but because every mile the Russians advance brings nearer the day, in the Teuton mind, when the nations of western Europe will accept their late foe as a comrade to stem the tide of the Slavic invasion.

There has long been reason to believe that the Germans have been looking forward to this hour of opportunity, when they hope to write off a large part of their debt incurred in the Great War by pulling the latest allied chestnuts out of the fire. It would be interesting, indeed, to learn to what extent the Bolshevik military triumphs have been due to German assistance. How many guns has Berlin furnished? How many military advisers? If the new government can plead innocence to such indictments the world will be greatly surprised.

But Germans who have staked much upon Russian successes have overplayed their hand. Poland will not fall, whether to Bolshevik bullets or Bolshevik pamphlets. It is not love for Poland that moves the French and British action now. It is concern for their own welfare. And it has been far too long postponed. The Bolsheviks are an even worse enemy to the world than was Germany. They should be combated on the same basis that nothing short of complete extinction will make the world safe.

As a suitable gift to a new bride, what would be more acceptable than a silver-plated can-opener?

## BEET SUGAR

THE NEW CROP  
\$21.<sup>00</sup> Cwt.

## Butter

That golden yellow Ragged Robin Butter has won a place in every home where it has been tried. Its goodness packed in a paraffine-lined carton will win you if you once use it.

65c the pound

## Fresh Ranch Eggs

Our daily supply of fresh ranch eggs comes from our country stores. We will give you a special price on these ranch eggs for the next few days.

54c the dozen

## Hip-o-Lite

A marshmallow whip ready to use just as it comes from the jar. No cooking, no eggs, sugar or other ingredients required, and no chance of failure. It is delightful as a filling or icing for cakes.

—the pint jar, 30c

## Knox Gelatine

Summer weather is gelatine weather. When it is warm weather people are accustomed to serving gelatine as a cooling dessert. Many dainty dishes may be made with fruit, whipped cream and gelatine.

Knox Acidulated—20c package

## Brooms—

If your old broom has worn one-sided you can not get satisfaction out of it. A C-2 or a C-4 is a light weight broom with stiff straws and one that will stand hard use.

C-2, 88c C-4, \$1.11

## Chocolate

Guittard's Ground Chocolate contains less sugar and more real chocolate, making it delightful for cake frosting, cup chocolate or puddings. Buy a tin today.

1-lb. tin, 50c — 3-lb. tin, \$1.40

## Snowdrift

This pure vegetable shortening maintains its white creamy consistency through the summer months—because it is packed in an air-tight tin and requires more heat to melt it than any other shortening.

1-lb. tin, 31c. 4-lb. tin, \$1.20. 8-lb. tin, \$2.35

## Acme Tea

This is the right tea for iced tea. This tea was picked and packed in Japan under the Acme Label as a special blend for cooling refreshing drink. Drink iced tea at every meal.

## "FOR AFTER SIX"

By "Marjorie"

(Written for the United Press)  
NEW YORK, Aug. 13.—Evening gowns of the fall and winter season seem to promise more scope for individuality than the street and afternoon dresses which so dogmatically declare that slinkiness is absolutely the only silhouette.

It is true that the swathed effect takes title role even in evening gowns, but there are a few exceptions. The very top-notch evening gown—the sort that would be worn at a Blue Bird ball if such a social event should happen all over again, is merely a very few yards of shiny material bound round and round the figure.

Such a model of jet over a fitted underslip of black satin is the piece de resistance of a Fifth Avenue house which specializes in "clothes for after six." Complying with the vogue for some covering over the epidermis, the sleeves of this model are of sheer chiffon and even envelop the wrist. There is no back, but a long train atones for any seeming deficit. A novel note is given by the sash of tulle which floats over the hips and is caught in a wired bow

as wide as the entire frock. The streamers of this sash float to the floor. A corsage of deep-toned artificial roses is the only touch of color on the gown.

A similar figure-revealing gown is shown of electric blue spangles over the same shade of velvet. A fringe of Orientally-hued beads falls from the bodice, shoulder straps, and over the hips. A huge bow of tulle floats from the left shoulder.

The more bouffant evening gowns are shown for the debutantes who have not sufficient maturity of bearing and face to wear the Theda-Bara gown. A charming model is shown on The Avenue of dove chiffon over coral satin. Soft bands of deeper-toned marabou finish the top of the bodice and are used for shoulder straps. The Turkish harem effect is retained by the shirred-in skirt hem.

Combinations of net or lace with taffetas and softer silks are much in the vogue for these panniered and puffed soubretish dresses. Bright shades of flame, canary, emerald, and turquoise and peacock blue abound in the debutante gowns, while black laces, nets, jet, and satin are the more mature woman's favorites.

## CUTTING DOWN WORK HOURS

Charles W. Runyon, clerk of the Martin circuit court, who attended the meeting of county clerks and who is said to be the youngest clerk in the state, has a daughter, Alice, just starting to school.

Alice was at a little desk Santa Claus had brought her. She had apparently been in a deep study for some time when she suddenly looked up and said:

"Mother, I have made a new resolution." "What resolution have you made, my dear," replied Mrs. Runyon. "Well, mother," said Alice, "I'm not going to work so hard next year as I did this."—Indianapolis News.

## IT NEVER IS

In a small town not long ago, after a fire, some children held a fair. The sum realized they sent to the pastor of the church. Their letter read:

"This \$30 was raised by a fair, and we are sending it to you. Please give it to the fire sufferers."

P. S.—We hope the suffering is not all over.—Everybody's Magazine.

## SIMPLICITY ITSELF

"Do you know," said Prof. Brown to his bosom friend, "I cannot understand how people forget the ages of their children. I have no trouble. For example, I was born twenty-three hundred years after Socrates; my wife, eighteen hundred years after the death of Tiberius Caesar; my son, John, two thousand years after Tiberius Sempronius Gracchus was chosen tribune of the people; and our daughter, Amanda, fifteen hundred years after the beginning of the Folk Wandering. It is perfectly simple, you see!"

## LIKE AND UNLIKE

An old preacher used to say that a wife should be at once like and unlike three things. First, she should be like a snail, always keep within her house, but she should not, like a snail, carry all she has on her back. Secondly, she should be like an echo, to speak when she is spoken to; but she should not, like the echo, always have the last word. Thirdly, she should be like the town clock, always keep time regularly; but she should not, like the town clock, speak so loud that all the town may hear her.—Boston Transcript.

### COMPULSORY VACCINATION

One of the constitutional amendments on which Californians will vote next fall provides that:

"No form of vaccination, inoculation or other medication shall hereafter be made a condition for admission to or attendance in any public school, college, university or other educational institution in this State."

It's a good amendment.

It always was a dark mystery to us why any clean and healthy child should be compelled to have a raw place scraped on its arm and diseased pus from a sick calf daubed on the sore, before the child could be admitted to school.

We have no quarrel with doctors.

We recognize that they have changed their minds and practices a very great number of times, as the trade of doctors has advanced. We know that they blush a little at the things doctors used to do no longer ago than a middle-aged doctor can remember.

We surmise that twenty-five years hence the doctors will blush a bit at things that doctors are doing now.

Nevertheless, when we are sick, we call a doctor, and take his medicine and directions with great fortitude.

We know that doctors are, as a class, earnest, self-sacrificing men, who do a good deal more for other folks than they are ever paid or thanked for.

But we don't favor their idea of forcibly medicating well people, and particularly we oppose the medication of healthy children.

A clean child, free from disease, is not a menace to the health of other children, and it should not be barred from school, vaccinated or unvaccinated.

There have been a lot of vigorous fusses about this vaccination business.

The doctors point with pride to the fact that smallpox has nearly, though not quite, disappeared.

But about the time doctors began to experiment with cowpox, and serums, and things like that, they also began to experiment with soap and water.

In other words, they found out that cleanliness of body and house and yard and street was one of the best preventatives of disease on earth. It was considerable of a discovery, for everybody and nearly everything was dirty in those days.

As cleanliness increased, diseases of filth began to weaken, and entirely to disappear in spots.

Smallpox flourished in dirt, and retreated before the advance of soap, just as other like diseases retreated, in company with lice and bedbugs and pests of that kind.

The great plagues that break out in the world usually come from places where dirt flourished—China, and India and the desperately famine-racked districts in Austria today.

Some day the doctors will proudly adopt the bar of soap, the vacuum cleaner and the sanitary washrag as the emblem of their profession, and their work in preventative medicine will consist in seeing that the world keeps clean.

They will bury the vaccine-point and the serum needle along with the bleeding-cup and the dried barnyard-offal prescriptions of earlier days, and most of the medicine bottles will go with them.

The surgeon and the sanitarian will keep up the finer traditions of a craft that, though often mistaken, has given much thought and pains and genuine kindness to the welfare of its fellowmen.

In the meantime, the proposed constitutional amendment will not prevent anybody from being vaccinated if they want to be.—San Francisco Daily News.

### CHARMS OF THE CITY

Some people who worry over the troubles of coming years, that may or may not come, are much alarmed because so few of the boys who went to war are going back to the farms. It is predicted that there will be famine in the land if more food is not produced. In the vicinity of large cities, it is said, not more than one in ten of the boys brought up in rural districts have gone back to the farms after being released from military service.

There are charms in the city that the farm does not have. The streets are alive with humanity, theaters are open day and night, strangers are coming and going and fetes and festivals are ever changing the shifting scenes, preventing stagnation and monotony. It is good business for the city people to keep things on the move, to retain residents and bring more to the industrial centers. Every person making a home in a city is an asset to the commerce of that city.

The commercial spirit seems to hold the upper hand on most people. For 300 years the work of city building has been going on in the United States, at the expense of the rural districts. Now the charms of city life, with municipal light, heat, water and extensive transportation systems, invite the men and women from the farm. It may be a sign of future losses in production and higher prices for consumers, but the young people of this age are not given to very serious thinking along the line of economic waste.

### JAPANESE LAND HOLDING

A vague apprehension is in the minds of American people living East of the Rocky Mountains, lest the agitation in California against Japanese ownership of land in this country should lead to international complications. This is, of course, inspired by the vigorous protests of the Japanese against legislation now pending. It is probable, however, that the Japanese people themselves do not take their protestations too seriously. They have an elemental sense of justice, as well as a saving sense of humor, which must show them the anomaly of their position, for they are demanding of other nations rights as aliens which they themselves do not concede to foreigners in their own country.

The only enduring basis of diplomatic negotiations is just mutual concession. There must be a willingness to give as well as take. Before Japan can expect to be taken seriously in its outcry against restrictions of Japanese land ownership in California or elsewhere in this country, she must extend to Americans the right to own land in Japan. She must enter any negotiations with reference to the status of her people in this country with clean hands, otherwise her protests must be regarded as mere petulance.

## FIVE FREE LECTURES

—by—  
**L. W. ROGERS**

National President of the  
Theosophical Society

At Masonic Temple, Glendale.

**SUNDAY, AUGUST 15, AT 2 P. M.**

"THE LIVING DEAD"

In this lecture Mr. Rogers will discuss death as an incident of life—not the misfortune that many think it to be.

**MONDAY, AUGUST 16, AT 8 P. M.**

"REINCARNATION"

What is the Soul? How does the mind come into existence? Is the soul created at birth or has it pre-existence?

**TUESDAY, AUG. 17, AT 8 P. M.**

"THOUGHT-POWER AND FATE"

Is fate within our control? If so, what determines it? Can we change had fortune into good, and how?

**WEDNESDAY, AUG. 18, 8 P. M.**

"THE SUPERMAN"

This lecture deals with superhuman and super-physical evolution.

**THURSDAY, AUG. 19, AT 8 P. M.**

"SELF-DEVELOPMENT AND POWER"

The laws of soul growth will be considered in this lecture. The definite steps of spiritual progress will be discussed.

Admission Free—Collection

## Go to Hermosa

Members of the Calling Committee of the Tuesday Afternoon Club were entertained Thursday by Mrs. Frank Ayars, Chairman, at the cottage she is occupying at Hermosa Beach. The group included Mrs. A. A. Barton, Mrs. E. H. Willisford and daughter Joy, Mrs. J. I. Wernette and son Eugene, Mrs. R. A. Puffer, the three children of Mrs. Ayars and Margery Temple. Temperatures of air and water were ideal and the children could scarcely be weaned away from the surf. Their luncheon was served in a tent on the sand while the mothers dined at the cottage. Plans for calling upon members recently enrolled on the club roster were discussed with a view to promoting friendly relations and getting them interested in the club sections.

## Idaho Guests

Rev. R. A. Adamson and wife of Weiser, Idaho, who are leisurely touring the Pacific Coast states, were the guests of Miss Eva Garton the first of the week. Rev. Adamson having been her pastor several years ago in Caney, Kansas. He is now preaching for the Christian Church in Weiser.
